DR WARREN'S
Sarsaparilla Tomato and Wild Cherry
PHYSICAL BITTERS,
AT 50 CENTS PER BOTTLE

SARSAPARILLA, TOMATO, and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a safe, speedy and effectual remedy for Scrofulous, Mercurial and Cutaneous diseases, Jaundice, Indigestion, Dyspepsia, Bilious disorders, Liver Complaint (Costiveness), weak and sore Stomach, Ulcers and running Sores, Swellings of the Limbs, pain in the Bones, Tumors in the Throat, Rheumatic Affections, Salt Rheum, Erysipelas, Bad Humors, Eruptions on the face and body, Cancerous sores, King's Evil, Chronic Catarrh, Languor, Debility, Headache, Dizziness, Sallow complexion, and all those disorders which arise from the Abuse of Mercury or from an impure taint in the Blood, no matter how acquired.

The Extract here presented is prepared after directions given by the celebrated Dr Warren whose name it bears and will be found superior to any preparation of the kind now in use. It is highly concentrated—entirely vegetable—and very finely flavored to the taste. The change which it produces in the condition and tendency of the system is speedy and permanent.

As a *Spring Medicine* for purifying the Blood, Strengthening the Stomach and Bowels and checking all consumptive habits the Sarsaparilla Tomato and Wild Cherry Bitters are entirely unrivalled.

Prepared by Dr D F Bradlee, 130 Washington street, Boston.

Sold by J S HOUGHTON, at the *Magasin de Santé* (Magazine of Health) 130 Washington street, Boston—General Agent for New England. Also as above all the Popular Medicines in general use. Pure and genuine, at the lowest possible prices—Medical Books, Perfumery, Cosmetics and Fancy Goods, wholesale and retail.

AGENTS Bangor DAVID BUGBEE, G W LADD, Hampden L Smith, Frankfort Dr N ... Bucksport, Barnard & Hill, Belfast, Washburn & Jordan, Portland, ... Waldoboro' W H Barnard, and by the Dealers in Medicine generally.

june 17 1awd&eow1y

HINTS FOR THE WARM SEASON.
THIS wonderful compound combines MEDICAL POWERS over all other preparations ever formed for the relief of the diseases for which it is recommended, such as Headache, Dizziness, Sleepiness, Noises in the Head, Bad Taste in the Mouth, Nausea or sickness in the Stomach, Loss of Appetite, Indigestion, Dyspepsia, Fever and Ague, Pain after Eating, Sour Stomach, Heartburn, Jaundice, Costiveness, Determination of Blood to the Head, Piles, Coughs, Colds, pain in the side, back, limbs and joints, Rheumatism, Chronic Diseases, Scrofulous Humors, Salt rheum and all Cutaneous Eruptions of the Skin, General Debility, &c.

The DANDELION AND TOMATO PANACEA is particularly recommended in cases of Indigestion and Dyspepsia. The following are some of its distressing symptoms: Palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melancholy, restlessness, &c. It will cure the worst diseases of
RHEUMATISM
and will eradicate mercury from the system more finely, faster and better than the common Sarsaparilla preparation. The *Dandelion and Tomato Panacea* is, as all must be aware, from the ingredients of which it is compounded, the best as well as the safest.
Spring and Summer Medicine
now before the public. Spring and Summer are the seasons when
Jaundice Complaints
are most prevalent. The symptoms of these complaints are
Drowsiness, Dimness of Sight, &c.
It has proved itself a most astonishing and effectual remedy for that worst of all maladies,
The Piles,
because it cleanses and enables the stomach to discharge into the bowels, and causes a free circulation and regulates the whole system, and thereby prevents
Humors
of long standing, and in fact it is requisite for the promotion of
Sound Health
from the most exhausted constitutions.

Manufactured only by JAMES KIDDER, Jr. East Boston, and for sale by my appointed agents.

For sale in Bangor by G W LADD and POTTER & BROWN. tmarch21 june 24

READ THE FOLLOWING.
From the "Western Star," a religious periodical, published at Jacksonville, Illinois.

"DOWNS' VEGETABLE BALSAMIC ELIXIR.—We are not in the habit of puffing medicines in our columns, but having used the above medicine in our family with gratifying success, and being persuaded from all we can learn concerning it, that it is an excellent medicine for Coughs, Colds, Consumption, Whooping Cough, Asthma, and diseases of the Chest and Lungs, we do not hesitate to give it a cordial notice.

Elder Downs, an acquaintance of ours, was himself an invalid for a long time, and was thought to be far gone with the consumption, a disease hereditary in his father's family. This remedy was the means of restoring his own health, and multitudes have testified to its salutary effects upon themselves and families."

From the Missisco (Canada) Post of April 6, 1846.
"REV. N. H. DOWNS' VEGETABLE BALSAMIC ELIXIR, for all diseases of the Chest and Lungs.—From the abundant testimonials of those who have made use of this preparation we can recommend it to the public with the utmost confidence in its use and efficacy. The great danger, also, of neglecting complaints pertinent to the chest and lungs, should persuade every person subject to such complaints to possess themselves of this valuable remedy."

Sold in Bangor by D BUGBEE and G W LADD, of whom pamphlets may be had giving a full description of the medicine. 3tawd&w22t6m dec 24

Thompson's Eye-Water.
THE best article now in use for the cure of weak and inflamed Eyes. For sale by
G. F. SARGENT,
J14 No 22 West Market Place.

From the Boston Courier.
THOMPSON'S COMPOUND SYRUP OF TAR AND WOOD NAPTHA,
FOR THE
CURE of PULMONARY CONSUMPTION, Coughs, Spitting Blood, Bronchitis, Asthma, Pain in the Breast, Hoarseness, Loss of Voice, Weakness of the Lungs, and all Complaints of the Throat and Lungs.

It is not our practice to notice the various popular medicines of the day, but in the present instance we are induced to deviate from our ordinary rule from the confidence we have in the medicine and the truth of the statements in relation to it. It would be worse than useless for us to give our opinion of the merits of this preparation, when we can cite testimony of so much more weight for the manner in which an article is received and stands in the place where it originates, where, from its use, the public can judge of its value, has much to do in forming its character as a remedial agent.—This SYRUP is used and recommended by members of the Faculty of the Medical College in Philadelphia.

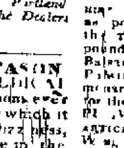

Such testimony is alone sufficient to entitle it to public confidence. Again the low price at which it is sold places it within the reach of every one.—In our estimation, this article possesses superior claims to any other medicine within our knowledge for these forms of disease.

Prepared only by ANGNEY & DICKSON—(successors of S. P. Thompson)—at the N. E. corner of Fifth and Spruce streets, Philadelphia. Price 50 cents, 6 bottles for $2.50.

☞ CAUTION.—Beware of all pretended imitations of this excellent medicine, and purchase no medicine which purports to contain Tar and Naptha, as all have sprung up since the introduction of the genuine, Thompson's Compound Syrup of Tar and Wood Naptha, which is the only preparation ever offered to the public, containing the active principle of Tar and Naptha in a concentrated state. Then you avoid all spurious Tar mixtures.

FOSTER'S
MOUNTAIN COMPOUND!
FOR THE HAIR,
IS AN ARTICLE IN WHICH THE PUBLIC MAY PLACE THE UTMOST CONFIDENCE.
THE MOUNTAIN COMPOUND
is entirely different from anything ever before introduced. It combines several important medicinal qualities ... for removing DANDRUFF, ERUPTIONS, or DISEASES from the skin of the head.

Its powerful, tonic and lustral qualities give great beauty and richness to the texture of the Hair, and ... the gentlemen of Boston, Portland, Lowell and other places, have testified to a very great extent to its admirable adaptation for dressing, softening, curling, and keeping the HAIR MOIST A GREAT LENGTH OF TIME—longer, much longer than any thing else can, and no substance is left to soil any fabric however delicate.

Every individual who has bought one bottle of this Compound speaks well of it, and buy again, and the proprietor feels confident to recommend it from that fact.

☞ For testimony see small pamphlets.

CAUTION.
N. B. None genuine unless signed on the wrapper H. W. Foster, in his own handwriting, and also have words ... inscribed, securing copy right, and printed on the back of the wrapper near the fold—"Entered according to Act of Congress in the year eighteen hundred and forty six, by Horatio W. Foster, in the Clerk's office of the District Court of Massachusetts." Also cut in bottles impressions on the bottles blown in the glass "FOSTER'S MOUNTAIN COMPOUND," ...

The Sugar-Coated Pills.
A NEW SARSAPARILLA PREPARATION.
To cure Diseases, Purify the Blood! To avoid them, keep it pure!!
The PROPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly, from a morbid state of the system caused by
IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS. The originator of the only true and genuine Sugar coated Pills, most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from authorized agents and at the proprietor's establishment, No. 323 Broadway, New York.—Price 25 cents a single box, 5 boxes for one dollar.

G W LADD, Agent for Bangor.

Among the numerous remedies which stand reputable on the basis of an ancient name are none, perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article.—They have gained their high reputation, alone by their good works. Those who once try them always use them again. They are grateful to the stomach;—they improve the functions of secretion, nutrition and circulation. They restore digestion and appetite and create a natural wholesome upwardly, which flows through the whole system, giving it greater vitality and animation. The experience of thousands attest to their good effects. After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system. His digestive organs perform their proper functions, his blood regains its wonted purity, the oppressive sense of weakness and lassitude departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness. Such are the results produced by Halsey's Sugar coated Pills, the mildest yet most effectual preparation of the class in use.

In BILIOUS complaints, Costiveness, Indigestion, Dyspepsia, and all other disorders of the stomach, they produce the most happy results ... Sores, Boils, Saltrheum, Tetter, Erysipelas, Eruptions of the Skin, Scrofulous complaints and many others like these arising from IMPURE BLOOD they have become highly celebrated. Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of scrofulous affections. They give *Good Blood for Bad*, ... the boasted Sarsaparilla contains less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills. In Colds, Coughs, Influenza, Sore Throat, Headache, Giddiness &c, they are recommended with entire confidence. The relief in these cases is quick and permanent. For Fever and Ague, Bilious Fevers, Asthma, Piles, Loss of Appetite, Dropsy, Jaundice, Worms, Looseness, General Debility and many of the various other diseases to which the human system is liable they have proved an infallible remedy. Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness, yet they are searching and efficient. It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other series of a similar class, a trial only will explain the wide difference. The unhappy invalid after having tested but a *single box* of them will with joy for the unexampled change wrought in his health bear testimony to their uncommon virtues.

N. B. The *coating* of *sugar* adds nothing to the great virtue of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar-coated pills. The proprietor made his valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them, and ... boldly ... about the country, deceiving the public by imposing of them ... the already acquired reputation and popularity of the genuine *Halsey's Sugar-coated Pills*. In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents.

CONSUMPTION,
AND the best medicine known to man for Asthma of every stage, Liver Complaints, Bronchitis, Influenza, Coughs, Colds, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the side, breast, &c. and all other diseases of the
PULMONARY ORGANS.
A very important disease over which this "Balsam" exerts a very powerful influence, is that of a
DISEASED LIVER.
In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances when patients had endured long and severe suffering from the disease, without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected
PERMANENT CURES,
after every known remedy had failed to produce this desired effect.

Opinion of a Regular Physician.
Exeter, Me., Sept. 24, 1845.
This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.
E. BOYDEN, Physician at Exeter Corner.

NO QUACKERY! NO DECEPTION!
All published statements of cures performed by this medicine are in every respect TRUE.

BEWARE OF COUNTERFEITS AND IMITATIONS. The unparalleled and astonishing efficacy of Dr. Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam.

Be careful to get the genuine DR. WISTAR'S BALSAM OF WILD CHERRY. None genuine unless signed by I. BUTTS. Address all orders to SETH W. FOWLE, Boston, Mass.

SPEECH OF Mr. CORWIN

...he U. S. Senate on the 11th inst., on the

THREE MILLION BILL.

Specially reported for the New York Tribune.

Mr. CORWIN rose and said: Mr. President—I do ... end to attempt the performance of a task ... and foolish to go over the whole field ... which this subject embraces. It has al... occupied by more valiant and stronger ... me. All that I may hope will be to ... and there, a sheaf or two before the ... fully gathered. I rise Mr President ... ced the attention of the Senate on ... a one of performing the humble task ... to the body and through it ... ticular constituent which I represent, ... that have impelled me to occupy, what ... must know in times like this, is to say the ... position not desirable ... been impelled, Mr President from convictions which have pressed themselves ... mind from the commencement of the ... from the time I received the President's Mes... to this hour—to give certain votes upon ... portant measures which have been present... Senate which separate me not merely ... her side of the Senate with whom on ... questions I very seldom can unite but a majority of those gentlemen belonging ... me political party—of which I suppose I ... myself a member,—on this side of the ... It is not remarkable Mr President ... it is not a matter of surprise to any one who ... tended to the various opinions which have ... xpressed ever in this Hall that there should ... deal difference of opinion resulting out of ... variety of character and that diversity in ... thought and application of thought to the ... s of life which at least in the state in which ... ent find mankind is almost a natural ... It must however have struck ev... e sir as a very curious fact that the two ... ators on the other side of the Hall in looking at ... present aspect of public affairs, should entertain ... ch singularly opposite views. The ... and contemplative mind of the Senator from ... Carolina (Mr Calhoun) in looking abroad at ... present condition of the Republic could see ... all around him but darkness, and doubt, and ... and fearful apprehension and impending ... while to the mind of the Senator from ... all was bright and calm and placid sun... prosperous breezes and a smooth sea ... President of this diversity of opinions ... revail in minds habituated and accus... to think earnestly and sincerely upon public ... it will present itself to every body as ... in him who is to determine between these two conflicting opinions all the attention which it is possible for the human mind to give the subject under the awful responsibility which rests upon every man in determining upon a question affecting so deeply the happiness and interests of so many millions of human beings.

Now I wish it were in my power to entertain ... placid convictions which appear to have set... on the mind of the Senator from Michigan ... rather than have my mind disturbed, as it has been ... common with the Senator from South Carolina ... and prospects of evil—by fear of a ... that every step we are now taking may ... last one which we shall be permitted to ... our career and in our history as a free peo... I am the less inclined to listen to this siren ... Senator from Michigan sings, than ... the present fearful aspect of public affairs, ... Mr President I have heard it before. Every one must recollect the condition of ... country two or three years ago, when that oth... question which was but the prelude and pre... or to the one which we are now obliged to dis... was before the Senate of the United States ... anxiously attracted the attention of the whole people of the United States—the question of the Annexation of the Republic of Texas but recently a portion of this same Mexico with which we are now at war. We were told then, sir, that Texas ... g an independent Republic, had a right to dis... of herself in whatever way and to whatever ... and purpose she pleased, and the parent repub... Mexico having no cause to complain would ... ter no complaint at the disposition she was then ... about to make of herself. We were told that war with Mexico would not—could not ensue if that step should be taken by the people of the United States. We were told then as we are told now by the Senator from Michigan that all was calm—all was tranquil, that as he said yesterday the sentinel might sleep securely on his tower—that all would ... peace, and that the step could in no sense ... the friendly relations existing between the Republic of Mexico and the Republic of the United States. We were asked not to anticipate the evil which was to come, just as the Senator from Michigan begged us to anticipate no evils which might be in prospect before us. "Sufficient unto the day is the evil thereof," was then the song with which the advocates of that measure sought to lull into tranquility or into apathy, the excited feeling of the public mind in this country.

And Mr President the day has come as was then predicted and the evil predicted has come with it. We are here sir now, not as then at peace with all the world—not now as then with laws that brought into your treasury every thing adequate to its wants—not now as then free from debt and the apprehension of debt and taxation, its necessary consequence.

But we are here with a treasury that is beggared—that lifts up its imploring hands to the monopolists and capitalists of the country—that sends out its notes and promises to pay into every mart and into every market in the world—begging for a pittance from every hand to help to swell the amount now necessary to extricate us from a war—inevitable as it now seems it was—from that very act which was adopted under such flattering promises two years ago. Mr President, it is no purpose of mine to arraign the conduct of the United States upon that occasion. It is no purpose of mine to treat the young and newly adopted sister—the State of Texas—as an alien or stranger in this family of Republics. I allude to this only to show how little reliance is to be placed upon those favorable anticipations in which gentlemen indulge with regard to consequences which may flow from measures to which they are strongly wedded either by feeling or by party attachment.

And is there nothing else Mr President ... the ... last ... to ... the Senator ... declaration which ... in the whole history of ... most eventful ... in the history of the Republic—there has never been a time when so much danger was threatened to the interests, happiness and liberties of the people of the United States as now. Why sir, if any one would sit down free from the excitement, free from the biases consequent upon a constant intermingling with those ... in public affairs, and in those ... and sequestered solitudes where thoughtful men ... themselves to reflections upon passing events, and look over the history ... of the last year, and then judge ... from all the examples of former times—according to that wisdom which history teaches and which ... alone can teach—of what must be the inevitable and ... result of what has happened, it appears to me that he would say that this Republic existing that its liberties are secured and the various functions of its Government bound up in the chains of a written Constitution, has ... that Constitution ... scattered ... to the breeze and resolved itself into—that old and much abused Constitution of England, a mere omnipotent Parliament?

No! He would rather ... events of the last ten months or the last year, that that power of this government which was evidently intended to be the controlling power—if there may be such a thing—the controlling power belonging to a Constitution which so divided out and directed ... powers with ... to the supremacy of each of its own sphere—had given itself up a voluntary slave to that alone which, by the framers of the Constitution, was intended to be the mere Executor and Ministerial officer ... One consider the history of the Senate of the United States for the time ... convened last year in this house ... whether ... recognize in that body a component part of the Congress of the United States. Would not ... formed that there exists a war with a neighboring Republic—a war which has taxed all the fiscal energies and ... power of the country, to carry on and for the last ten months without making the natural ... Where in the Journals of Congress shall I find the causes of this war—to what record of this body shall I go to ascertain what it is that has driven this peaceful ... people from the great pursuits of ... to rush into all the miseries of war? ... for I read in the Constitution of this Government that Congress—composed of the Senate and House of Representatives—the Congress alone and no other power ... can ever bring upon this country that ... worst and greatest curse of humanity—WAR ... by them ... alone ... the curse can be inflicted. I shall find, then, somewhere in the journal of Congress a statement of the causes and reasons of the war.

If the inquirer, Mr President, should look into the archives of this Senate or into the archives of the House of Representatives, he would be obliged to go away and tell the story to the world that ... it was altogether a mistake—that he could find no such Constitution as that, ... in the journal of either House could he find ... which avowed the reasons of the war—no such resolution solemnly ... to the world—to the tribunal of Christendom—the ... which impelled us to ... and ... people for the ... its weapons.

He will find it nowhere. And although this has been the condition of this country for about ten months ... is a fact indisputable and history must so record it, ... up to about five days ago there has not been afforded to the Senate of the United States one ... reason ... of this war, so that the Senator from South Carolina was obliged to ... he ... compelled to guess ... these reasons. How has this war come upon us? How is it that we have ... the hopes of those great and good men that ... in this one of the most important acts, which a Government can be called upon to perform? When they came to ascertain and fix the limits and boundaries of the various functions of the Government in which they ... should ... eternal and immortal ... that instrument ... that Congress alone should have the power to declare war, they but consulted in that instance as in every other, the gathered wisdom of the Past.

To be Continued.

[From the National Intelligencer.]

Mr. Calhoun's Speech,

On the Three Million Bill.

Concluded.

The next and important object is to facilitate the means ... of the ... so as to involve the smallest amount of means ... for the defence. And the line I have indicated presents ... the ... portion of the ... parts of Texas, where, upon an ... the forces ... both be ... raised ... upon the ... here ... regard to the line I have consulted military men, and they ... that it would ... more than the ... and thus ... to be erected ... the mouth of the Rio del Norte ... near Camargo, ... advantage ... From the ... of the Del Norte ... of the Gulf of California ... occupied ... would require ... every ... troops would be ... ample for that ... would be ample for the ... against any force ... could bring to oppose us.

The next consideration ... this line ... consequence ... partly ... country ... valuable. It ... through ... the ... country ... savage ... purposes ... this character ... the genius of our Government ... Mexico ... to grow ... herself ... unoccupied country ... best calculated to ... purposes. The population of this country was increasing at the rate of ... 100,000 annually ... this ... population they ... settled country, ... wanted ... space in which to extend themselves. This very ... that would make that part of the country valuable to us, would render it of little ... value to Mexico ... population ... station ... scarcely ... at all. It would ... increase two millions in twenty years. So far from being an advantage to Mexico, it is a waste country ... the ... would be directly ... the opposite ... between Mexico and her ... province of California must be exceedingly ... as remote from the city of Mexico as is New Orleans ... from Washington, in regard to ... New Mexico was much nearer to us than it was to the settled parts of Mexico. This ... provinces could not be otherwise than a source of ... annoyance and inconvenience to Mexico.

It was a remarkable fact in the history of this continent that, for the first time, the aborigines had been ... the population of European extraction—The Indians had been pressing upon the descendants of the Spanish population in Mexico, who, though they were ... brave enough in their own defence, yet the policy of the Federal Government having disarmed them, were ... not less than two thousand of them, and were now actually prisoners among the Camanches. It would be our object ... in taking from the Mexicans any territory at all, to take such as he had now referred to. The pressure of our people there would give a degree of prosperity to that country which it had not had from the time of its first occupation down to the present day.

The next consideration was, that the line should be such as, if established as the boundary between the two countries, would be the means of securing a permanent peace. And in respect to this, he held that the line he had designated was ... calculated to secure this ... under a ... state of things ... to keep our population out of that country. It would unavoidably spread there, in spite of all the ... they might choose to use. They might ... penalty upon penalty, yet our pioneers would inhabit that country unless the ... were ... to keep ... Government ... could not keep ... population ... Indian country ... frequently ... to purchase ... the Indian ... lands ... If we were to make peace with Mexico and make no provision for our population in a few years we should be involved in another war—Under ... all wars were ... for the purpose of ... the Mexicans ... of a portion of ... The establishment of this line however would ... an opportunity of acquiring possession ...

What he would agree to the adoption of another line ... he would be very far from recommending that it should be held absolutely and with a view to its ultimate retention by force. On the contrary he would hold it as a means of negotiation, and would say to Mexico, this line we will maintain until you negotiate with us upon the subject of a boundary. If you are ready to negotiate, we are also ready, and we are ready not only to settle the question of boundary but to settle it honestly, liberally, and fairly; to establish a line which will preserve peace on our part, and, if the line we have chosen be such as to afford us any advantage over you, we will meet it as we ought by a generous payment ... of an equivalent. These were the principles ... which he would be governed in regard to a treaty with Mexico. But he would go still farther. He would hold all the territories which we had now in possession, which could be held without too great a sacrifice of men and money. He would hold them on the same condition in which he proposed that they should be governed. He would lay a low rate of duty, not to exceed ten per cent, to be collected as a means of meeting the expense of defending this line. He had consulted with the proper authorities upon this point, and he was informed that it would not require more than two millions three or four hundred thousand dollars to defend it—These duties might be collected with advantage, not only to ourselves, but to the whole civilized world and in his opinion, the ... of duty he had named, combined with the other measures which he had indicated, would give us the means of forcing a settlement at no distant day.

Now I think I have shown (Mr C continued) that we can certainly maintain this line, and, by maintaining it, bring this war to a successful termination at no cost ... of men or money. The establishment of this line ... involve no hazard on our part, or ... of reputation, and, I may add, it will lay a foundation, I trust, when we come to a final settlement, if we act in the spirit in which we ought to act, of a permanent peace between us and the Mexican Republic. What (said Mr C.) will be the fruits of this policy? Why, sir, a large portion of the war expenses will be immediately cut off, the whole of the volunteer force may be dismissed in the course of a few months, when our position shall have been taken, and our points of defence occupied, thus effecting a saving of from fifteen to twenty millions of dollars a year. Further taxes will not be required, the credit of this Government will be immediately strengthened and the measure which some of us have so much at heart, and which we are risking the enjoyment of—I mean free trade—may in a short time be secured, and in successful operation, as it has already been for a short time in Great Britain, where it has shown itself a most fruitful source of prosperity.

But it may be said that Mexico will hold out. I think not. She will see that we have undertaken a task which we can perform, that our strength is adequate to go through with it without hazard and without difficulty—She will see that she is a great loser, and she will see that if she persists, instead of having compensation for any part of her territory thus occupied by us, she will lose the whole and gain nothing. But, in addition to this, the minds of the people of Mexico will be turned into a different channel. They now consider this war as a war of religion and a war of races, and every nerve is braced into strong resistance. If the course I have indicated be pursued, the people of Mexico seeing that their religion is not to be disturbed, nor their race likely to be overthrown, everything will take its natural course. They will become more regardful of their internal concerns than of external, and in a little time, in my opinion, a settlement will be brought about, and peace permanently established.

But, suppose she should hold out, with the character ... obstinacy of her people what is the result? We ... have peace without expense, or a war without hazard. A war looking much more like peace than war, so far as we are concerned. This policy will enable us to sustain the small military force which we shall require with but small expense to this country. It will do more; it will place us on *terra firma*, it will enable us to see the light which is now obscured by the impenetrable cloud that hangs over us.

I have now stated the reasons why I am in favor of taking a defensive position. I have first ... that it can bring this war to a certain termination, at a small expense of men and money, and without hazard of any description. It now remains to be shown what are the grounds of my opposition to the continuance of an offensive war. If I am not greatly mistaken, the arguments against such a war are as strong almost as the arguments ... I am opposed to it, in one word, for the very reverse reasons to those I have stated. In the first place there is no certainty that it will bring the war to a termination at all and in the next place if, under the most favorable circumstances, it will bring it to a termination, it will nevertheless be attended with vast expense and with the hazard of disastrous consequences and loss of reputation to this country.

In discussing this branch of the subject the first thing to be done was to keep definitely on our minds what was the real and true object of carrying on an offensive war for, until that was understood, we should be able to come to no decisive conclusion in reference to it. And let him be permitted to say he had made up his mind that the object was not conquest—he had made up his mind that the object was not conquest because we had territory more than ample upon our hands already for all the purposes of the Government for years to come. If not for conquest, he would ask for what an offensive war was to be carried on? He would be answered, it was to obtain peace, or, to use the language commonly employed "to conquer a peace"—an expression which, if but fairly considered, would be to perpetuate war. To conquer a peace could mean nothing more than to make war permanent. How, then was peace finally to be obtained or conquered? It could only be by treaty. ... nation, peace can always be made by two. Our object then in order to secure peace, was to obtain a treaty. What sort of a treaty? Such a treaty as would suit Mexico? We could get such a treaty at any time. No, but a treaty that would suit us—such a treaty as we might choose to dictate? But it was the treaty of peace which was the object of the war to obtain. The war, as he had already ... had been ... for the purpose of obtaining the establishment of a boundary which this Government ... should be fixed by the Rio del Norte. This was one of its objects. The object then, was to compel Mexico to acknowledge that to be ours which we could hold without her consent. ... as they pleased, they could take no more of it than this. This ... offensive war he repeated, was to compel Mexico to acknowledge that to be ours which we could easily hold in spite of all she could do.

Now (continued Mr C.) under this aspect of the question, I put it home to the Senate, is it worth while to pursue a war of this description, an offensive war even if you were assured you could reach the city of Mexico during this campaign, and dictate such a treaty? Sir, what is to be the strength of the army which you propose to raise in order to accomplish this purpose? And what is the amount of money which will be required to carry on your military operations with that army? You propose to raise an army of seventy thousand men, and to expend thirty-five or forty millions of dollars. Nay, we will suppose that you have an effective war establishment in the field of but fifty thousand troops. Now, what will be the end of the campaign? Suppose by a concurrence of favorable circumstances, you have effected the whole that you contemplated by the employment of this force and the expenditure of this money, what then is the state of the case? Why, you will have sacrificed in the first place thirty millions of dollars to get to the city of Mexico to dictate this peace, and what the sacrifice of life will be may be judged by looking at the past. One third must be put down as certain to perish, not by the sword but by disease, fifteen thousand lives then must be sacrificed. And I now put this question—Is it worth while that these sacrifices should be made in order to get that which is within your reach without any sacrifice at all? Sir I put a higher question. Thirty millions of dollars to be expended in pushing your war, which in its result in obtaining for us no more than we have already. Is here any man here who would give for California fifteen millions of money? Yet we propose to prosecute a war at an expense of thirty millions which is to produce this result. Sir I am but ... the shell of this matter as yet—Is there any certainty that you will reach the city of Mexico or if you reach it, is there any certainty that you can dictate a peace there, even if in possession of the city? These are considerations which command our attention. They are considerations of the utmost magnitude. But there are others which are not to be overlooked. An offensive war looks ultimately to subduing the country against which it is waged, and taking this to be the object of it we have scarcely commenced an offensive war. It is true we have acquired two-thirds of the Mexican territory by this war in that part of Mexico that is adjacent to us and let it be remembered farther that this acquisition gives us a larger extent of country than the whole valley of the Mississippi and in this immense space we have not more than five or six thousand inhabitants.

Now we have overrun this adjacent country to this vast extent, and with this thin population hardly a man of whom had joined the forces of the enemy, and what has been the result of this getting possession? Have we conciliated the Mexicans who occupy that vast country? Not at all. They are more hostile to us than they were at first, and more ready to take advantage of any opportunity to do us injury. Can we hold these possessions then, without a large force? Not at all, it must require several thousand of our best troops. What have we accomplished? We have hardly approached the confines of populated Mexico, we have but entered her ulterior provinces. Mexico proper consists of that remarkable high land, of which the city may be said to occupy the center; a vast region extending down to the Pacific, and to the southern side of the Gulf of California, containing seven millions of population—a population ten times as numerous as that of the country which we have captured—Here is the seat of her wealth and of her power, of her strength in defence, in resistance to our arms. What description of country is it? It is mountainous as any ... in the world. It may well be compared with Atlas in Africa, and with the Caucasus in Europe. These mountains are interspersed with enormous defiles rendering the approach of an army a work of the utmost difficulty. This is the character of the country we are about to conquer. How are we to overcome these difficulties? The plan is first, as I understand it, to take Vera Cruz. Now what is the description of country in that region? The country about Vera Cruz like the Province of Yucatan is a hot and sickly region the home of the yellow fever for eight months in the year and, during the months it is exempt from this scourge it is subject to the most violent storms which endanger navigation and make it difficult for ships to land. April is a very sickly month, March not so sickly. We are now near the middle of February. We may have force enough to take Vera Cruz but I appeal to Senators on all sides, shall we have force enough to march to the city of Mexico? Sir, I will not say that we have not but I will say this, there is no certainty that we have. It is altogether a contingency. We may not be able to reach the city of Mexico before the sickly season commences, and, if we do not, all is lost for this campaign. Mexico will be encouraged, and we discouraged before we can remedy the disastrous effect of this result of our ineffectual attempt to reach the city.

But suppose we do reach the city of Mexico, can we dictate a peace? Whom have we to deal with? A people—a race ... fathers ... for obstinate resistance when assailed—A people who held out, when their independence was refused to be recognized, for twenty years. These are the people with whom we have to deal with, and is there any certainty that we can bring them to consent to propositions to peace provided we get there?—Well if there is no certainty, but, on the contrary there is every probability that another campaign will be inevitable, (and it must be so, if either of these contingencies happen,) we must then have a second campaign.

Now a solemn question comes up. Can we raise the means? And we must remember that it will be necessarily a much more costly campaign than the first, at a great distance from a place where we can procure supplies. The expense must be proportionately great and this to be continued for a great length of time, for, if we do not conquer Mexico, if we do not conquer a peace we must then have a guerrilla warfare, such a War as exists between Russia and the Caucasus. Well, sir, can we have the means to meet this enormous expense? In the first place, as to the men, let me tell you that the spirit of volunteering is gone, that spirit ceases when men return with broken constitutions, when men, who went for glory, returned with disordered health. You will get no volunteers. You must depend upon the ordinary course of recruiting your army, and that must be sufficient to give us 20,000 men for the third campaign, if it takes place.

Well sir, suppose this difficulty surmounted, can you provide the ways and means? I fear there will be more difficulty in this than you imagine, remember that you have only as a reliance your Treasury notes and such money as you can borrow. You must either borrow or impose taxes, what taxes can you impose? Your taxes upon imports can give you but a small supply, you must resort to internal taxes—a measure which is abhorred by the people of this country more perhaps than by those of any country upon the face of the earth. But there is one circumstance which would lead you to an avoidance of internal taxation, if it can be avoided by any possibility, and it is that many of the States are indebted more than they can pay. If you lay an internal tax it must be laid uniformly throughout the States, and if you lay it upon those States thus indebted, will not repudiation extend? Will the people pay the tax? Will Pennsylvania with a debt of forty millions—will those States which are unable to discharge their obligations—will they bear such a tax? No, sir.

But, suppose this difficulty to be got over—suppose that you get all the means you want—is there sufficient unanimity and zeal in the conduct of this war to enable us to prosecute it successfully to the termination which you desire? Does the experience of this session furnish evidence that such would be the case?—No sir, here is too much division of sentiment. There is too large a proportion of the people of this country who believe that the war was avoidable, who believe it might have been avoided, and that it ought to have been avoided. There is too large a portion of the people of this country who believe that it was commenced without constitutional authority. There is too large a number who believe that the war was not only unnecessary and inexpedient, but that its commencement was highly injurious to the interests as well as to the reputation of this country. And these opinions are no doubt honestly entertained. What my opinion is in regard to this, I would willingly express; but I do not hold it proper to intermingle opinions upon matters which are not relevant to the main question under consideration in reference to this important subject. It is sufficient for me to say that, if we may judge from appearances, the divisions of opinion which prevail will render it highly improbable that there will be that zeal and unanimity in relation to this war that is necessary in order to produce the means of carrying it on to a successful termination in the way that is proposed.

But there was a still deeper and still more terrible difficulty to be met—a difficulty more vital than those to which he had alluded—a difficulty arising out of a division of sentiment which went to the very foundation of our Government. How should these lands be acquired if any were acquired? To whose benefit should they enure? Should they enure to the exclusive benefit of one portion of the Union? We were told, and he was fearful that appearances too well justified the assertion, that all parties in the non slaveholding portion of the Union insisted that they should have the exclusive control of this acquired territory—that such provision should be made as should exclude those who were interested in the institutions of the South from a participation in the advantages to be derived from the application of these institutions to the territory thus acquired.

Sir, (said Mr C.,) if the non slaveholding States, having no other interest in the question except the aversion to slavery—if they can come to this conclusion with no interest in the matter but this, I turn and ask gentlemen, what must be the feeling of the population of the slaveholding States, who are to be deprived of their constitutional rights, and despoiled of the property belonging to them—assailed in the most vulnerable point, for to them this question is a question of safety, of self preservation, and not a mere question of policy; and thus to be despoiled by those who were not concerned? If there was this bitterness and determination on one side, they might be assured there would be on the other. If he might judge from what he had heard, from the appearances proceeding from the non slaveholding States—and he had no reason to doubt it, they being the first to cry out for a vigorous prosecution of the war—would they suppose that less feeling would be exhibited on the part of those who were to be entirely excluded from their rights, and while this additional difference existed between them?

But, (said Mr Calhoun,) I will admit that all this has been surmounted, that men, money, and unanimity can be had. The question then comes up, can you, if you do not get peace with Mexico in the city of Mexico, can you bring this war to a successful conclusion by subduing the country? That is the question. Is there any certainty—for I don't make it a question of probability at all—that you can bring this war to a conclusion in that way? Look at the history of such wars. There are analogous wars to which I have already alluded—that of Russia in the Caucasus, and France in Africa. The case was of a similar character. The Russians are brave and well disciplined troops, yet the occupants of those mountainous countries were defending themselves successfully for years against such troops, the best perhaps in Europe. Are we to encounter no difficulty of this kind when contending against a people who are proverbial for resisting to the last? No, sir, there is no certainty that the war will be brought to a close, and if there is no certainty, where then will you stand?—Where will you end with your military operations? You must have not only one or two campaigns, but you must have, four, five, six, seven, eight or nine campaigns. How many campaigns has France had already in Africa?—[A Senator—she has had sixteen.]

How many has Russia had in the Caucasus? How many had we ourselves in Florida in the war against the Indian tribes, which lasted five years, and in which we expended thirty millions of dollars? Well, suppose we do bring the war to a close at the end of a third or fourth campaign? Suppose we do this, then there comes the real question after you have forced Mexico into a compliance with your terms, what are you to do with what you have thus gained? Can you incorporate Mexico into your Union? Can you bring here her seven millions of people, all differing from you in their religion, in their habits, in their character, in their feelings? can you bring them into connection with your citizens? Can you incorporate them into this Union, and make them a part of the people of the United States? No sir. Can you hold Mexico as a province? No, sir, it would be fatal to attempt it. The vast increase of Executive power consequent upon such a movement renders it altogether objectionable.

NOTICE.

CONGRESS.

Washington, Feb 13

In Senate. The resolution to exclude the editor and reporters of the Union from their seats in the ... was taken up.

Mr Westcott addressed the Senate at great length, and gave as his impression that the articles in the Union were the result of a preconcerted attack by the administration upon Mr Calhoun. The attack of Mr Turney yesterday confirmed this impression ... that the ... of this administration consisted of nothing more than ... from the ... General down to a ... second lieutenant ... the people of the United States were only aware of the ... which ... existed at the seat of government they would tumble the President and his departments, the Congress and ... Whigs and Democrats heels over heads, into the Potomac, and they would ...

Mr Mason opposed the resolution as abridging the freedom of the press and as a violation of the constitution.

The debate was continued pro and con, by Messrs. Butler, Huntington, Yulee, Hannegan, Archer, Cilley and others.

It was finally decided by a vote of 27 to 21, that Mr Ritchie be expelled.

His reporters were spared by the withdrawal of the resolution relating to them.

In the House some unimportant business having been transacted, the committee of the whole resumed the consideration of the three million bill.

Speeches were made by Messrs. S... Jones, Washington Hunt, Hudson, B... Giddings and Thompson.

The committee rose during the remarks of Mr Hunt.

The venerable John Quincy Adams appeared and was introduced to his seat by Mr Johnson, ... which ... occupied it since the commencement of the session. Mr Johnson ... Mr Adams on his ability to resume his seat in the House and expressed ... gratification at ... the time ... was selected, ... would surrender it immediately on the appearance of the venerable member from Massachusetts.

Mr Adams replied to the courtesy of Mr Johnson, and expressed a high sense of pleasure at the manifestation of respect and esteem bestowed upon him by members of all parties, who were crowding around to welcome his return. Mr Adams seems to have lost flesh but neither strength of body or vigor of mind.

A message was received from the President, asking provision to be made for the appointment of field officers under the Ten Regiment Bill, recommending a tax on tea and coffee and a reduction in the price of the public lands in order that the war with Mexico may be vigorously prosecuted, and remarks that it is necessary that our arms in that quarter should be brought to the fullest extent. The message was long on various subjects, all tending to forward the prosecution of the war.

Washington, Feb 3, 1847.

I have been informed that the War Department will accept seven companies from New York and three from New Jersey, making one regiment for these two States. From Rhode Island, one company; Maine three; New Hampshire, two; Connecticut two and Vermont two, or one regiment for New England. From Maryland four companies, Delaware one. It is said that Pennsylvania and Ohio will each furnish a regiment and that North Carolina, South Carolina, and Virginia, conjointly, will furnish one. Three companies will be accepted from Illinois. The mounted regiment will probably be raised in Tennessee and Kentucky. I have not been able to ascertain the proposition from other States. Nominations of field officers are expected to be sent in on Monday. F...

Veracity.

In all your intercourse with society let the world ... every city will gain respect while prevarication and falsehood are despised. Let a strict regard for truth be a characteristic of your time, and rest assured, under whatever circumstances you may be, that truth is powerful and will ultimately prevail. It stands in bold relief, the child of heaven, and is when unadorned admired the most. Be candid in all your conversations, ever bear in mind that honesty is the best policy. ... always be found ... truth, and you need not fear the frowns of virtue, for you will remember that ... is borne ... crown and gives permanency and beauty to others.

The Last Miller Story.

The following anecdote from the Knickerbocker, will do immediately after dinner:

A ... old gentleman in New England, whose wife was a thorough "D... Millerite", was awakened out of his sleep by his spouse ... one stormy March night ... "He ... did you hear that noise? It's Gabriel coming! It's the sound of his chariot wheels!"

"Oh pshaw, you old fool!" replied the old man, "do you suppose Gabriel is such an ass as to come on wheels in such good sleighing as this? I tell you it's not him—turn over and go to sleep."

Yet another Cure!

THOMPSON'S COMPOUND SYRUP TAR AND WOOD NAPHTHA WILL CURE CONSUMPTION!

... April 9 1847

LAST August a year I caught a violent cold in consequence of getting wet in a shower of rain. A ... and ... it. On the contrary however, I daily grew worse—... cough set in then pain in my breast and between my shoulders. I now suffered great oppression ... secretion of phlegm ... my lungs. I became greatly alarmed and my friends considered my case extremely critical ... the morose ... loss of appetite hectic fever and night sweats ... me as weak as a child. At night the sweat literally poured off me! This was my condition when I commenced using THOMPSON'S COMPOUND SYRUP TAR AND WOOD NAPHTHA. I procured one bottle and experienced so much benefit that I resolved to continue it. It is now six months since I ceased using the medicine and the cure remains perfect. I find it to be ... medicine far superior to every other remedy for Consumption of the Lungs.

J J CHAMBERLAIN No 8 Carberry st

SICKNESS IN CHILDREN

And the suffering which they undergo from WORMS often tend to a fatal termination, while the CAUSE is never suspected. Offensive breath, picking at the nose, grinding the teeth during sleep, starting in sleep with fright and screaming, troublesome cough and feverishness, are among some of the *Prominent Symptoms* of the presence of worms. A timely use of

SHERMAN'S WORM LOZENGES

Will immediately remove all these unpleasant symptoms and restore to perfect health. Sister Agnatia, Superior of the Catholic Half Orphan Asylum, has added her testimony in their favor to the thousands who have gone before. She states that there are over 100 children in the Asylum, and that they have been in the habit of using Sherman's Lozenges, and she has always found them to be attended with the most beneficial effects. They have been proved to be infallible in over 400,000 cases.

CONSUMPTION,

Influenza, Coughs, Colds, Whooping Cough, Tightness of the Lungs or Chest, may be cured. Rev. Darius Anthony was very low with Consumption. Jonathan Howarth, the celebrated temperance lecturer, was reduced to the verge of the grave by raising blood. Rev. Mr. Dunbar, of New York; the Rev. Mr. De Forest, Evangelist in the Western part of this State; Rev. Sebastian Streeter, of Boston; the wife of Orasmus Dibble, Esq., in Moravia, and hundreds of others, have been relieved and cured by the proper use of

SHERMAN'S COUGH LOZENGES,

And no medicine has ever been offered to the public which has been more effectual in the relief of those diseases, or which can be recommended with more confidence. They allay all itching or irritation, render the cough easy, promote expectoration, remove the cause, and produce the most happy and lasting effects.

HEADACHE,

Palpitation of the Heart, Lowness of Spirits, Sea sickness, Despondency, Faintness, Cholic, Spasms, Cramps of the Stomach, Summer or bowel Complaints, also all the distressing symptoms arising from free living, or a night of dissipation, are quickly and entirely relieved by using

SHERMAN'S CAMPHOR LOZENGES,

They act speedily and relieve in a very short space of time, giving tone and vigor to the system, and enable a person using them to undergo great mental or bodily labor.

RHEUMATISM,

Weak Back, Pain and weakness in the Breast, Back, Limbs, and other parts of the body, is speedily and effectually relieved by SHERMAN'S POOR MAN'S PLASTER, which costs only 12½ cents, and is within the reach of all. So great has become the reputation of this article, that one million will not begin to supply the annual demand! It is acknowledged to be the best strengthening Plaster in the world.

BEWARE OF IMPOSITION.

Dr. Sherman's Poor Man's Plaster has his name with directions printed on the back of the Plaster, and a *fac simile* of the Doctor's written name under the directions. None others are genuine or to be relied on. Dr. Sherman's Warehouse is No. 106 Nassau st., New York.

THE GRAEFFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT," should be made the means of incalculable and enduring blessings to the human family. Suppose, for example, that a high order of talent, long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a Pill. Why may not this long devotion to this useful science be crowned with the success ... There is no reason, and it is but the ... common sense to say ... with as perfect an article as ... *Twenty five years devotion* to any ... will give a man of ability the mastery over ... labor has been bestowed upon the

Graefenberg Vegetable Pills

... are presented to the public with claims unparalleled in the whole history of medical science.

... in tracing the history of all great inventions, they were not made or ... what may be termed THE FULNESS OF ... the mariner's compass, for instance, was not ... until the *fulness of time*; it was needed ... The *loadstone* always lay at man's feet, but he never knew what a wonderful and unerring guide was in its ... until the Divinely appointed time drew near when distant continents and islands were to be unveiled. Behold it now transferred to the ... of the adventurous sailor, enabling him to ... far away upon unknown Oceans, instead of timidly ... within sight of ... landmarks!

So with the discovery of the New World, upon whose shores was to arise this Great Nation ... glory, a mission far beyond the conception of the wildest ... The Old World had reached its highest ... the fulness of time drew near for the revelation of the New, and behold the immortal Columbus ... with the invention of printing, of steam, of the magnetic telegraph. Each of these had its own "fullness of time," and each, distinct and Providential.

☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. Most beautiful ... illustrations and proofs of this which are to be found in the history of the world. We can trace them from the Mosaic ... down to the present ... all of them teaching us the lesson and giving us the hope that *something yet better* to heal human ... ad ...

That this principle is as true of Medical as of Physical sciences, is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it.—The

Graefenberg Pills,

are deemed by all who have tested them to be an in... vice upon all other medical combinations and discoveries hitherto known, and they are un... ing.

THE GREAT REMEDIAL TRIUMPH.

The inventor of these Pills rests his theory upon no ... dogma of ordinary medical teachers ... himself upon the revelation of the

ALMIGHTY CREATOR,

THAT

"THE BLOOD IS THE LIFE;"

he requires that his disciples and his patients *make pure the Fountain*, but looks through their veins and arteries ... for a PERMANENT cure. ...

... In the first place, READ THE GRAEFENBERG GAZETTE. ... a copy of the Gazette, which can be had.

GRATIS!

In the second place, TRY THE PILLS. It will cost but ... a blessing to the end of your days ... but the limits of this advertisement forbid. But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED:

Asthma,	*Flatulency,*
Bilious Complaints,	*Fluor Albus, or Whites,*
Bowels, deficient action in,	*Gastric Fever,*
Breast Pangs,	*Green Sickness,*
Catarrh,	*Gripes,*
Constipation,	*Heartburn,*
Cough of Pregnancy,	*Headache,*
Costiveness,	*Hysterics,*
Diarrhea,	*Incontinence of Urine,*
Difficult Breathing,	*Indigestion,*
Dyspepsia,	*Inflammation of vital parts,*
Dyspeptic Consumption,	*Inflammation of the stomach,*
Digestion imperfect,	*Jaundice,*
Determination of Blood to the head,	*Liver complaints,*
Ear Ache,	*Low spirits,*
Erysipelas,	*Menstruation, Suppressed or scanty,*
Epilepsy,	*Nervous disorders,*
Fever—Low, Nervous, Intermittent, Remittent,	*Neuralgia,*
Fever and Ague,	*Rheumatism,*
	Stomach, various diseases,
	Whites.

In all bilious and chronic disorders these Pills achieve the most wonderful triumph. HERE THEY DEFY COMPETITION. And as the susceptibility of the American constitution is to these diseases, they are aptly styled by some

The Pill of the New World.

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES, CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS, MAKE THE URINE FLOW MORE FREELY AND CLEAR, AND TO GIVE TONE AND STRENGTH TO THE SYSTEM.

It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills. But ... which have abundantly satisfied the ... among the ... Clergymen, and ...

☞ NUMBERS OF CERTIFICATES of the wonderful efficacy of these Pills might be presented, but a certificate ... the paper on which it is printed. A few extracts from the correspondence of the Company, will, however, be given.

FROM INDIANA.

"Your enterprise is the enterprise of the day. Its magnitude will astonish the ... It is destined ... a complete revolution in the medical world."

FROM A JUSTICE OF THE PEACE IN WESTERN N. YORK.

"I have sold a number of boxes to the citizens of this place. They have given entire satisfaction, and they are destined to become the most popular Pill of the day."

FROM TOLEDO, OHIO.

"Having heard much, and witnessed two or three cures effected in the mode directed by your Journal, I have thought it important you should have an agent at this place. In my opinion, more good can be done in this climate by your medicines, than by the old ...

I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success."

FROM A DISTINGUISHED GENTLEMAN OF BOSTON.

Gentlemen,—I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills. For many years I have suffered much from ... which has disarranged my whole system; and I have not known a day's good health for many years past, and being an old man, I despaired of ever again enjoying life, but a friend recommended me to try your Pills, which I did, although without any confidence ... the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day."

FROM JUDGE ———, OF GEORGIA:

SIRS,

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say that they have been of great service to me, and if they continue to give me the relief I have already felt, I shall bless the day you sent them. I need no allude again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood where they have performed some extraordinary cures."

FROM AN EPISCOPAL BISHOP.

Gentlemen,—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or ... any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills. I was induced to try them, from the philosophical manner in which you have reasoned on the subject, and I must do myself the pleasure, and you the justice to say, that I had no conception so speedily an effect could be arrived at. My complaint has been that of the Liver, from which I despaired of getting better, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find myself able to endure, without bodily suffering the duties of an arduous Profession. In future I will send to your agent for more Pills when needed. With great consideration and gratitude, I am, &c.

From every section of the entire country similar testimonials are daily received, but our limits forbid further extracts. SINCE TRIED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS.

WHOLESALE WAREHOUSE
49 John Street, New York.

☞ In towns where there is no branch, the Company will appoint one on application by letter, (post paid) or otherwise.

☞ Persons wishing the Pills sent by mail, can order them.

RUST PROOF IRON,

FOR

ROOFING, WINDOW SHUTTERS, &c.

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc, &c., or any other metal now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repair, whilst the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c., they will be able to furnish any article which may be desired. A supply of Plates manufactured in Europe, constantly on hand, from 16 to 32 wire guage.

GEO. B. SICKEWOOD & CO.
Nos. 14 and 16 Lewer st., New York.

The Patent Right for this article has been secured for the United States as well as Great Britain, and other European countries, and all legal measures will be taken to prevent any infringement by incorporation or otherwise.
oct 27, 1846 eowd&wly

PATENTS.

AMERICAN AND FOREIGN OFFICE, And Agency of the U.S. Patent Office, Washington

22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded free of expense and risk to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fourteen years practice—an extensive collection of rare works, documents, decisions, &c., on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time his office has been established and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing patents which in other respects might be difficult of attainment.

R. H. EDDY, Civil Engineer.

Valuable Water-Power and Land for Sale.

THE subscriber offers for sale 200 acres of good land, situated in the east part of Sebec, on each side of Sebec River, comprising the Falls known as "Half-moon Rips." A substantial Dam has just been built at these falls, and by running a canal a short distance a fall of 20 feet is obtained affording one of the best water privileges in the State of Maine. The Sebec River affords sufficient water through the dryest seasons for a large amount of Machinery, is not obstructed by ice and there is no danger of damage by freshet. The location being 36 miles from Bangor, and 12 from Katahdin Iron Works, is a favorable one for the manufacture of Cotton, Wool, Iron, &c. Also, a Saw Mill and Shingle Machine might do a good business.

DEAFNESS CAN BE CURED.

COOPER'S ETHEREAL OIL.—A prompt and lasting remedy for DEAFNESS, also for pains and discharge of matter from the Ear.

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient, is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of deafness.

Persons who had been deaf for 10, 15 and even 20 years have been permanently cured by using this oil. In fact so numerous and emphatic have been the testimonials in its favor that the inventor claims for it the distinction of an Infallible Remedy in all cases, when the Ear is perfect in its formation.

For further particulars, and evidence of its great value, see printed sheets, in the hands of Agents.

WORMS EASILY REMOVED.

Winer's Canadian Vermifuge.

HUNDREDS OF CHILDREN DIE every year from the disease produced by Worms! They are the cause of numerous and frightful diseases. Indeed there is scarcely a complaint common to infancy and childhood which may not be produced or greatly aggravated by the presence of these destructive animals in the stomach and bowels. Cases are recorded of their producing St Vitus's Dance, Locked-Jaw, Dropsy, Squinting, Loss of Feeling in the Limbs, Rickets, Palpitation of the Heart, Eruptions, Dry Cough, Severe Pains, Paleness, Emaciation, total Decline of Strength and consumption. They consume all the nourishment in the body, and finally destroy the child.

WINER'S CANADIAN VERMIFUGE is a pleasant, safe, speedy and permanent cure for this dangerous affliction. It has been faithfully tried, and is universally approved of even by Physicians. It destroys the worms at once, dissolves and carries off the slime which forms the nest of worms, and greatly improves and invigorates the system. It is the most perfect thing of the kind ever invented, and no family should be without it.

P. S. Parents may be assured that this medicine is perfectly harmless in all its effects. It is carefully compounded, of the very best materials, and there is not the least danger in using it.

Price only 25 cts per bottle.

J. S. HOUGHTON, 130 Washington street, Boston, General Agent for the New England States.

HEDENBERG'S
PATENT AIR-TIGHT

PARLOR COAL STOVE

THIS STOVE was patented by Mr. F. L. HEDENBERG, of New York, in 1845, and was sold by him to a considerable extent in that city last winter giving entire satisfaction to those who used it.

The subscribers having purchased the right to vend the article in this city now offer them to the public with the fullest confidence that, for Parlors, Chambers, Stores, Halls and Offices, where little or no pipe is to be used they are superior in point of economy, comfort and convenience, to any other Stove now in the market.

The principle on which the Stove is constructed will commend it to the judgment of the scientific, while a moment's observation of one in operation will secure the admiration of the practical man.

A lengthy description of this article is unnecessary. We prefer that it should be seen, believing that it will be found to possess those qualities for which all are looking in parlor and office Stoves, viz: beauty, durability, cleanliness, convenience in management, and ability to radiate the largest possible amount of heat before it passes from the stove. By a constant circulation of air in the room through the Stove (entering under the base) around the cylinder which contains the fire, the air is kept in a state of the greatest purity.

—ALSO—

the following Parlor Stoves:
FOUR COLUMN Air tight, Coal Stove.
Sheet-Iron Air tight, Wood Stove.
Cast Top and Bottom A T Wood Stove.
Cast Iron A T Wood Stove.
Pyramid Coal Stoves.
Cylinder Stoves for Wood.
Eagle Parlor Stove for Wood.
Cut Parlor Stove for Wood, and

a great variety of COOKING STOVES, all of which will be sold at as great bargains as can be had in the city.
